

ELECTRICAL ASSEMBLY TECHNICIAN-USA

Posted: May 15, 2017
Position: Electrical Assembly Technician
Salary: 12/hr
Application Deadline: Open until filled
Employment Level: Part Time
Location: Tucson, AZ

JOB DESCRIPTION

- Perform manual assembly during the small-scale production of electronic devices used in mobile vehicle computer systems.
- Perform manual assembly of cable harnesses using wire gauges ranging from 14 – 28AWG.
- Read and interpret drawings, diagrams, blueprints, specifications, work orders, or reports.
- Perform light soldering work of small gauge wires (20 – 26AWG).
- Inspect wiring installations and assemblies.
- Assist Logistics personnel with packing finished products for shipment.
- Assist Logistics personnel in performing warehouse functions (receiving, stocking, picking, etc.).
- Must be able to lift and manipulate items with a weight of up to 75 lbs.
- Perform QC test procedures of incoming products.
- Test functional performance of finished cable and electronic component assemblies.
- Occasionally pick up materials from local vendors using company or personal vehicles.
- Review work activities with supervisors.
- Must be able to speak English fluently. Ability to speak Spanish is a plus.
